

# OXFORD UNIVERSITY HARRY POTTER SOCIETY

## Rules

- Each clue, like all subsequent ones, ends with a question. For each clue, you should text the answer to +44 XXXX XXXXXX, and, if the answer is correct, you'll receive a reply with the next clue. If the answer is incorrect, you'll receive a reply asking you to try again.
- If you're completely stuck, you can text "CHEAT" for the next clue without having the answer to the question, but a fifteen-minute penalty will be added to your time.
- We'd expect the treasure hunt to take two hours in total.
- Use of Google is encouraged.
- Use of Bing is discouraged.
- The start will be staggered; the winning team will be the one that takes the least total time to reach the end point, which will be sent to you in response to the answer to the last question.
- To begin, text the word "START" to the number above, and you'll receive the first clue in reply. Your time will be measured from the sending time of the first clue.
- There's a whole sheet to fill and I don't know what to put on the rest of it.
- So here are some cute Harry Potter animals.
- This is not a hint for the treasure hunt.
- Or is it?

## TREASURE HUNT
